Development

EASTBANK

Eastbank serves NBP Capital as its expert development affiliate. A dynamic portfolio of work includes ground-up construction of mixed-use buildings, historic renovations for hospitality and creative office space, and value-add renovation.

Don Mutal and Aaron Jones, co-presidents, bring a deep understanding of real estate development with a combined 40+ years of experience. Eastbank develops assets that fit perfectly into the fabric of the community, by taking a holistic perspective on the impact a structure can make on the surrounding area.

Work spans the West Coast including Portland, Seattle and Los Angeles markets.

Executive Team

AARON JONES

Aaron Jones is one of the most active apartment developers in the Portland area. Designing, developing and investing in efficient innovative projects has been his passion for more than a decade. The spaces he helps create set a new bar for rental rates and quality of living. He has completed more than $600 million in projects during his career and currently has multiple sites under development. The relationships that he has cultivated bring people together and lead to stand-out projects. Jones is involved in all aspects of the projects undertaken by Eastbank and Path PDX, the construction affiliate of NBP Capital. He is hands-on with site acquisition and design development, to entitlements, construction management, marketing and lease up. His involvement carries all the way to long term management and operations. Jones is an industry leader and decision maker who inspires the people he works with. He attended the University of Oregon where he majored in business and psychology.

DON MUTAL

Don Mutal is a real estate developer and international entrepreneur. He understands construction engineering from the ground up. He notices the details. That kind of attention and focus increases profit margins and produces beautiful results. Mutal started out as a yacht engineer and became a captain. He spent 20 years traveling the globe, commanding multi-million dollar vessels for many of the world's most influential people. He began his "land" career in Houston working in private real estate. He opened his own real estate development firm when he moved to the Pacific Northwest. He has developed many different spaces including: condos, offices, residential, commercial and mixed-use properties. Mutal is an innovative, practical leader creating assets that enhance a portfolio and a neighborhood.
